

PROFESSIONAL GROWTH BOOKS

2019-2020

The North American Division Office of Education is happy to bring you the annual listing of the Professional Growth Books. Some of these books are written by non-Adventist authors and, therefore, may not fully reflect Seventh-day Adventist philosophy. However, we believe there is value in these books which have been selected to inspire, bring insight, and challenge your thinking.

To secure a Professional Growth Certificate for the 2019-2020 school year, you should read the four issues of the *Journal of Adventist Education*, at least one book from Group B, and at least four additional books from two or more other headings. Some books may have been listed under two headings and will count for either group. One book of your choice, which could be classified under any of these headings, may be substituted for a book on this list.
